1 Label location

Label will be placed on the board as in the follow picture:

Using a permanently affixed label, the modular transmitter is labeled with its own FCC identification number, and, if the FCC identification number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.

This exterior label can use wording such as the following:

“Contains Transmitter Module FCC ID: ZQWGIT000003”

or

“Contains FCC ID: ZQWGIT000003”

Any similar wording that expresses the same meaning may be used.
